

2010 NSCAA Convention Clinic Outline Book

Romeo Jozak, FC Dinamo-Zagreb Academy Director

Synopsis (practical)

The Title: “Basic stereotypes of cooperation”

Short theoretical explanation about important basic facts of the methodology:

In the organizational part of game/play development, player cooperation mostly manifests itself in some common forms. Such latent structures of cooperation transform and adapt their basic form to innumerable variations of player cooperation.

- Demonstration of developmental steps of the learning process

- Presentation of drills with the emphasis on the structure of player cooperation/combination plays

- Examples of very effective training forms for creating the best possible predetermined action pathways or automatization of player cooperation

- Game situation applications of drills
